

🌟🌟🌟 Day 125 🌟🌟🌟

of Our Daily UiPath Q&A Challenge!

Welcome to Day 125 of our exciting
UiPath Q&A Challenge! Each day,
we'll be answering one key question
to help you master UiPath and
revolutionize your automation
journey. 🚀

🚫 Question for Today

What are Dependencies?

Dependencies

- Project dependencies in Studio refer to packages linked into a specific project, containing activities, either default or custom.
- The versions and runtime rules of activities packages installed in an automation project are detailed in the project.json file. The versions and runtime rules can be updated from the Manage Packages window
