🌟🌟🌟 Day 5 of Our Daily UiPath Q&A Challenge! 🌟🌟🌟

Welcome to Day 5 of our exciting UiPath Q&A Challenge! Each day, we'll be answering one key question to help you master UiPath and revolutionize your automation journey. 🚀

⛔ Question for Today

How to create Asset & How to retrieve or update value of the asset in your workflows ?

✅ Answer

✳ To create an asset, navigate to the Orchestrator, go to the "Assets" tab, and click the "Add Asset" button. Fill in the required details such as name, type, and value, then save the asset.

✳ To get value from asset, use the "Get Asset" or "Get Credential" activities in UiPath Studio. Specify the asset name to retrieve its value for use in your workflow.

✳ To update the value of an asset, use the "Set Asset" or "Set Credential" activities in UiPath Studio. Specify the asset name and its updated value.

Get Asset

Orchestrator folder path
